LITHOCHROME® Chemstain®

Choose colorful LITHOCHROME® Chemstain® Classic to add beautiful translucent special effects to concrete. This reactive, penetrating concrete stain creates unique, permanent concrete color effects. The mottled, variegated patina is ideal for interior floors, exterior hardscapes and custom concrete projects. LITHOCHROME Chemstain Classic penetrates and permanently stains new or existing concrete and cementitious toppings and wears only as the concrete wears.

Colors:

- Available in eight natural-looking colors. See color chart LITHOCHROME Chemstain A-412.
- *Copper Patina, Fern Green and Weathered Bronze will blacken permanently if exposed to excess moisture in interior or exterior applications.

Packaging:

- One gallon pail
- Five gallon pail
- 14 ounce bottle
- Kit of eight 14 ounce bottles (all one color or mixed set of eight colors)

Coverage:

- 200-300 sq.ft²/gallon, per coat.
- To approximate the colors on the color chart, two coats may be applied. Always prepare a test sample.

Ideal Uses:

- To give new concrete a variegated, time-worn patina.
- To enhance the aged look of old concrete (must have a clean, durable concrete slab).
- Variegated appearance is more pronounced on flat-trowelled interior floors.

Application:

- Can be applied with a solvent-resistant sprayer such as SP Systems 20ACID sprayer.
- Can be applied to vertical and exterior surfaces.

Keys to success (continued on back):

- For large areas, acid-resistant hand-pump sprayers are recommended.
- Maintain a wet edge during application.

LITHOCHROME® Chemstain®

Keys to success (continued from front):

- For artwork and faux finishes, other methods may be used, including: bristle brushes, sponge applicators, and rags.
- Complete neutralizing and residue removal are required prior to sealing.

Sealing and Maintenance:

- Use a compatible clear sealer (shown in order of performance)
- SCOFIELD® Selectseal Plus™ - High wet SCOF, superior abrasion resistance
- SCOFIELD® Cureseal-S™
- SCOFIELD® Cureseal™ - VOC
- SCOFIELD® Cureseal-W™ - VOC
- CEMENTONE® Clear Sealer - VOC

Regular maintenance with a commercial floor finish is recommended for interiors.

Prior to beginning job, consult Scofield Tech-Data Bulletin LITHOCHROME Chemstain-1320

*Weathered Bronze, Fern Green and Copper Patina are for interior use only.
