Precision detailing tools for professional results

The kit contains:

- Joint rollers in three sizes for detailing of pattern grout joints.
- Adapter allows joint roller to be attached to a standard broom handle.
- Aluminum cold chisels in six sizes for straight line joints:
2, 3, 4.5, 8, 12 and 18-inches.
- Aluminum "S" Tool for cutting of small grooves or easy touch ups.

Attention to detailing creates the most realistic and appealing patterns.
