Concrete Solutions for a Sustainable Future

## LEED DATA SHEET SCOFIELD® Repello®

### Primary use:

SCOFIELD Repello is a low VOC, penetrating water repellent developed for use on exposed aggregate or sandblasted concrete surfaces.

### Manufactured by:

L. M. Scofield Company  
6533 Bandini Blvd.  
Los Angeles, CA 90040  
(800) 800-9900

4155 Scofield Rd.  
Douglasville, GA 30134  
(800) 800-9900

## LEED Points – Indoor Environmental Quality 1 point

Commercial Interiors  
Core and Shell  
Healthcare  
New Construction  
Retail – CI  
Retail – NC  
Schools

### Credit IEQ 4.2 : Low Emitting Materials – Paints and Coatings

Specify low-VOC paints and coatings in construction documents. Ensure that VOC limits are clearly stated in each section of the specifications where paints and coatings are addressed. Track the VOC content of all interior paints and coatings during construction.

**VOC content <100 g/L**

## LEED Points – Materials and Resources 1–2 points

Core and Shell  
Healthcare  
New Construction  
Schools

### Credit MR 1 : Building Reuse - Maintain existing walls, floors and roof

Maintain existing building structure (including structural floor and roof decking) and envelope (the exterior skin and framing, excluding window assemblies and non-structural roofing material).

**Existing structural concrete floors can be colored, polished and sealed which could contribute to achieving this credit.**
