Add beauty to both vertical and horizontal projects with CHROMIX® P Admixtures. The reliable, nonfading and consistent admixtures for cast-in-place and precast concrete have been proven to stand the test of time.

Available in three convenient forms:
- CHROMIX G (granular)
- CHROMIX L (liquid)
- CHROMIX P (powdered)

LITHOCHROME® Colorwax™ is available in matching colors.

Review Tech-Data Bulletins and SDS before use.

Visit www.scofield.com for the most current versions.

* Shadow Slate is only available in CHROMIX P (powdered) form.

Colors shown approximate the color of broom-finished concrete flatwork made with a medium-gray cement and cured with LITHOCHROME Colorwax in the matching color. Concrete not so cured will have less brilliance.

Concrete should be batched and placed in accordance with Tech-Data Bulletins.

Concrete color is altered by many factors, including cement and aggregate color, slump, finishing practices, and curing method. Using the contemplated materials and construction techniques, representative samples should be cast for approval, especially when exact color matching is important.
